

CD Duevel

High end omnidirectional
loudspeaker

Venus

The Venus, Goddess of Love and Beauty, is the entry-level omni-directional loudspeaker in the Duevel product line up. This is a direct-reflectional omni design. Its hexagonal cabinet structure eliminates internal standing waves, resulting in pure and powerful bass notes, beautiful mid range frequencies with soaring highs, devoid of harshness or grain. As with all Duevel loudspeakers, the Venus is a 2-way design keeping crossover networks as simple as possible. It is a rear ported speaker and extremely easy to place in any listening space.

The Venus is the “morning star” of the Duevel line, as it shines so brilliantly in the early morning sky. So to, it will brighten up your listening space with the music you love. These celestial bodies remain forever faithful to one purpose, to bring music into your life. The Venus is your fire!
